# Inpatient wards and departments

Information about the Lancashire Cardiac Centre's wards and departments can be found here.

## Cardiac Day Case

The day case is a 20 bedded male and female ward, which admits patients for their procedures and cares for them post procedure until they are discharged home. The most common procedures include coronary angiogram, coronary angioplasty, permanent pacemakers, internal defibrillators and Cardioversions. As the ward usually caters for mainly elective patients, it is open 24hrs Monday through to Friday and closes at weekends. The ward consists of eight staff nurses all specialised in cardiology and four health care assistants. There is also one sister who is in charge of the ward five days a week.

Patients being admitted for morning procedures should arrive by 8.00am and those arriving for afternoon procedures should arrive for 10.30am.

The unit is located on ground floor of Lancashire Cardiac Centre across from the main lobby/café area.

## Coronary Care Unit

The Coronary Care Unit is a seven bedded high dependency area caring for patients following an acute heart attack/heart rhythm disturbance/acute heart failure/primary angioplasty and other cardiac conditions. All patients are under the care of a consultant cardiologist.

We are a small team of enthusiastic and dedicated nurses and we aim to make your stay with us as comfortable as possible as being in a high dependency area can be stressful – there is a lot of monitoring equipment and noisy alarms, we will provide you and your family/close friends with support and guidance.

We have a small relatives room which can be used by family and friends.

Mealtimes for the patients are between 08:15 -09:00, 12:15 – 13:00 and 17:15-18:00.

Ward visiting: 2pm – 4pm, 6pm – 8 pm. Monday – Sunday. Maximum three visitors per patient. Other visiting by arrangement, depending on patient condition.

Telephone number: 01253 657863

Located on the first floor of Lancashire Cardiac Centre, through Ward 37 at the end of the corridor.

## Cardiac Intensive Care Unit

CITU is a 20 bedded unit that provides intensive/high dependency care for patients who have undergone cardiac or thoracic surgery.

Almost all patients are admitted to the unit directly from theatre following their operation. Due to the nature of the surgery the patients require a high level of monitoring and support from our nursing team. All patients are nursed either on a one nurse to one patient ratio or a one nurse to two patients ratio.

Most patients are discharged to the cardiothoracic ward (38/39) within one to two days following their operation.

On a 24 hour basis there is a sister or charge nurse who is in charge of the day to day running of the unit. They have many years of experience in cardiothoracic surgery.

Visiting times on CITU is restricted to 2 – 4pm and 6 –7 pm. This is restricted to two relatives per bed. It is important that the patients get as much rest as possible. Next of kin are encouraged to telephone the unit to keep updated on the patient's progress.

## Ward 37

Ward 37 is a 39 bedded acute cardiology ward, split into three teams. The facilities are six four bedded bays with toilet and shower in each bay and the remaining beds are single rooms all with en-suite facilities. We are a dynamic team with ward managers available Monday through to Friday and a senior nurse in charge on all shifts.

Ward visiting times 2pm – 4pm and 7pm - 8pm.

## Ward 38

Ward 38 specialises in adult cardio-thoracic surgery, caring for people from all over the North West who require heart or lung surgery. Ward 38 itself is a busy 28 bedded ward. Four of these beds are 'high care' beds for patients who require closer monitoring.

The ward is divided into six, four bedded bays , and four en-suite side rooms. Each bay has its own toilet and shower facilities and the ward has a disabled bathroom with easy access. The ward is mixed sex but each bay is single sex apart from the high care bay. We work hard in maintaining privacy and dignity in nursing our patients.

Each patient has bedside telephone and television facilities and they can be accessed by purchasing a card which are available on the corridor outside the ward. There are also two dayrooms available for quiet reading.

The ward operates a protected meal time policy and after lunch our patients are given a undisturbed rest period to aid recovery. Our patients are looked after by extensive specialised multi-disciplinary team which includes seven cardio-thoracic consultant surgeons and anaesthetists, physiotherapists and nurses. We are also able to refer to a wide range of other departments like the dieticians and occupational therapists, to ensure all our patients needs are met prior to discharge.

Visiting hours are 2pm-3.30pm and 7pm – 8pm.

Located on first floor of Lancashire Cardiac Centre.

## Ward 39

Ward 39 is an 18 bedded mixed sex cardio-thoracic ward which is situated on the first floor of the Lancashire Cardiac centre. Ward 39 consists of four bays (four patients per bay, same sex) there are a number of single rooms also available and all have en-suite bathrooms.

The ward follows a protected meal time policy of 12 – 12.45pm.
All beds have patient line (TVs and phones). Cards can be purchased outside the ward on the main corridor.

Visiting times are 2.30pm – 4.30pm, 6.30pm – 8pm, Monday to Sunday.

Telephone number: 01253 657756 / 657757

Located on the first floor of Lancashire Cardiac Centre by the main stairs.

## Lancashire Suite (private ward)

The Lancashire Suite is a six bedded private cardiology and cardiothoracic unit. There are at present 15 staff members including nursing staff, ward clerk, housekeeper and a private patient administrator. We hold pre admission clinics for the cardiothoracic patients which are held in our consultation room. The consultants also use the consultation room to see pre op and post operative patients this service is mostly used by the cardiothoracic surgeons.

Visiting hours are 2pm – 4pm 6pm – 8pm

Located on the first floor of Lancashire Cardiac Centre, on the left at the start of the main corridor.

Telephone number: 01253 957861
