It has been reported nationally that staff and patients don't always feel supported in regards to LGBT+ matters in a healthcare setting. This is not acceptable to us at West Herts Trust and we want to do what we can to make everyone feel welcomed and included at our hospitals. We are running the NHS Rainbow Badge campaign where our staff can choose to wear a badge as a visual indicator that they are open to discuss and help with any LGBT+ issues. Hear what it means to some of our staff in this video.
